Sci.STEPS and scienceOS form partnership

Both parties collaborate to create supportive environments for young scientists.

Leipzig, Germany and Dresden, Germany: Today, Sci.STEPS announced a new partnership with scienceOS. This collaboration will offer members of Sci.STEPS a preferred pricing scheme for the scienceOS web app and support scienceOS with access to structured user feedback.

“We aim to support our participants in every aspect of their lives as scientists,” says Dr. Olya Vvedenskaya, Co-Founder and community manager of Sci.STEPS. “Together with scienceOS, we empower aspiring researchers to approach the literature review process with precision and confidence.”

“Scientific progress requires collaboration,” says Henri M Deda, Co-Founder and CEO of scienceOS. “The partnership with Sci.STEPS will enable us to support early-career scientists in becoming members of the next generation of scientists and learn from their journey.”

The benefits of this new partnership include:

- Preferred pricing scheme for participants of Sci.STEPS
- Seminar for Sci.STEPS participants on how to benefit from using scienceOS in research
- Access to user feedback for scienceOS

About Sci.STEPS: Sci.STEPS is a mentoring program for undergraduates, graduates, and young scientists looking to build their lives and careers consciously.

About scienceOS: scienceOS strives for a world where scientists can swiftly tackle global challenges. The scienceOS app assists researchers with AI-enhanced research tools and support from hypothesis to publication.
