BIOLYNX and scienceOS form partnership

The partnership will contribute to a supportive career development environment for young scientists.

Madrid, Spain and Dresden, Germany: Today, BIOLYNX COMMUNITY announced a new partnership with scienceOS. This collaboration will offer members of the BIOLYNX COMMUNITY a preferred pricing scheme for the scienceOS AI research agent and support scienceOS through access to structured user feedback.

“We help talented scientists find their way in the field of science,” says Jorge Dominguez, Community Lead at BIOLYNX COMMUNITY. “As a scientist and pharmaceutical industry professional, having access to all the scientific evidence through simple queries - without needing to know any code - is a total gamechanger, and it provides detailed information.”

“Supporting young scientific talent is essential to shaping the future of research,” says Henri Max Deda, CEO and Co-Founder of scienceOS. “By partnering with BioLynx, we can help bridge the gap between academia and industry, empowering the next generation of scientists with the collaboration, vision, and practical skills needed to create meaningful impact.”

The benefits of this new partnership include:

- Preferred pricing scheme for members of BIOLYNX COMMUNITY
- Online seminar materials for BIOLYNX COMMUNITY members on how to use scienceOS
- Access to user feedback for scienceOS

About BIOLYNX COMMUNITY: BioLynx is Spain's leading community for young scientific talent. We bridge the gap between university and Academia and the Pharmaceutical/Biotech Industry, equipping students with the skills and knowledge needed to succeed.

About scienceOS: ScienceOS is the AI research agent that streamlines research workflows with access to over 230 M trusted papers. Get citation-grounded answers, upload PDFs, and build a shareable research library.
